

# What is the Story on Pedersen Transport?

Pedersen Transport is a family owned and operated LTL and TL company that has been serving southern Alberta since 1966. Founded by Garry and Lorraine Pedersen and later joined by Charles and Jim Pedersen, Pedersen Storage and Cartage became well known for setting the standard for excellent service and on time delivery throughout southern Alberta. Today, Pedersen Transport is still in the family, now in the second generation with Wayne Pedersen in the drivers seat.

Early on the 3P's (Pedersen Picky Principles) were adopted and are still in use today. Principles such as integrity, safety, continuous improvement,

attention to detail and family first are top of mind with every employee. With every delivery our people ensure that; we are on time, shipments are treated with care and that our customers are satisfied. It is every employee's obligation to ensure that we are the best that we can be.

The late Troy Pedersen, Garry Pedersen and Wayne Pedersen.

Pedersen can handle any shipment, delivered anywhere. Dry Vans, Refrigerated Vans, Container Chassis, Straight Trucks and Flat Decks... we have an extensive stable of modern equipment to satisfy any freight need. Every driver undergoes rigorous training and is required to perform regular safety inspections of all equipment. And we know how to handle freight. From a single shipment to truckloads, we have the knowledge and the capability to deliver the goods.

Pedersen Transport has a great future. The management team is engaged and focused on our vision of being Alberta's most valued carrier. With our strategically located terminals and modern equipment, we are in a good position to provide top notch service to our clients. And finally and most importantly, we know our business. Transportation is in our blood. We have grown up in the business and we are here to stay.

Big enough to handle anything, personal enough to know you by name. We pick up and deliver in Alberta and around the continent... Pedersen Transport.
